Disclaimer

I am NOT a realistic portrait painter, I only illustrate based on main features.

My style is quirky, fun and illustrative.

If you are looking for a realistic portrait/painting, please reconsider commissioning Vos&Ink (Alisa Günter)

All portraits are done in watercolours on professional watercolour paper.

Your reference photos are very important.

Make sure they are clear and recent. All reference photos must be the property of the commissioner.

If you are ordering a full-length illustration, please include full-length photos (head to toes).

Make sure the eye and hair colours are clearly visible.

A custom art piece is non-refundable. The full amount is payable before the illustration process begins.

Make sure you have a clear indication of what to expect.

Please do not cut any of my illustrations, if you have already purchased a frame, please provide me with the measurements and I will quote and paint your illustration accordingly.

This will ensure that my product stays professional as I intended it to be.

Permission and Credits

1. All illustrations are done in the unique VOS&INK style: a non-realistic, playful interpretation based on the photos you sent, the focus is on basic features and is not an identical version of the subject.
2. All original and digital art are copyrighted by the artist and may in no way be photocopied unless contracted otherwise.
3. Adding the digital option gives you the right to use the artwork for PERSONAL USE ONLY e.g. wedding stationery.
4. No art, digital or original, may be used for reselling unless the contract states otherwise. Please inquire about licensing to resell.
5. The artwork is the intellectual property of the artist Alisa Günter and may NOT be used as ideas to pass off as your own.
6. Alisa Günter reserves the right to reuse and sell art in the form of printed/digital art. Please feel free to ask about this.
7. Posting my artwork on Social media is allowed, I do however not allow you posting it without crediting me as the artist.
Do so by tagging @vosenink in the caption as well as the photo itself.
This is also applicable when having the right to use for printed and digital media.
